

Example Day in the life of a Wilderness Player 2020

2020 Minnesota Wilderness Practice protocol

1. Before departing for the rink, players will do a Covid-19 self-assessment. If a player answers “Yes” to any of the Covid-19 questions the player will not be permitted to come to the rink. The player will immediately contact the team protocol officer for the next steps the player should take.
2. Upon arrival at the main entrance of Northwoods Credit Union Arena, players will properly apply a face covering that covers mouth and nose.
3. One at a time, players will proceed to the daily check in area while maintaining 6 feet social distancing. Players will fill out a COVID-19 final check with Team Protocol Officer. Players will have an oral temperature taken and must be below 100.4 F. Only at that time will players be allowed to proceed to their designated locker room.
4. Players will continue to wear their face covering that covers both nose and mouth the entire time they are in the locker room until they are departing to go onto the ice.
5. During practice, each player will have their own personal water bottle and sweat towel designated by their player number. They are to only use that water bottle and towel. Post practice they will be removed, cleaned, and sterilized by wilderness staff.
6. Players will depart the rink to their designated locker room in a staggered series to allow players to undress, shower, and immediately depart the rink.
7. There will be no loitering around after practices. The only reason that a player will stay after practice is for a designated film session or for medical treatment.
8. There will be NO EXCEPTIONS to these rules.

If you have any questions, please reach out to our designated Wilderness TPO Officer.
